

Managed Office 365

Green House Data provides migration assistance, ongoing support, and administration for Microsoft Office 365. Available through a single log-in on any device and powered by reliable cloud hosting, Office 365 delivers productivity applications to your employees anywhere.

Avoid Migration Complications with a Managed Solution

Why choose managed Office 365 from Green House Data rather than purchasing direct from Microsoft? Dedicated management of your servers and software is included, with a 15 minute Hear from a Human response time standard. Forget migration difficulties and testing your configuration – leave setup and security to us.

Every Office 365 deployment comes with a dedicated technical contact, custom tailored support, and migration assistance for your existing e-mail boxes.

- Month-to-month contracts with annual commitment
- Additional subscriptions are simple to add via support ticket
- Includes Exchange, Word, PowerPoint, Excel, OneNote, Publisher, Teams, Skype, and OneDrive
- One license covers every user
- Always up-to-date — no patching, updates, or security administration
- 15 minute Hear from a Human support response time guaranteed
- Client Services and expert administrator support with deeper knowledge than a script or online knowledge base

“ We did consider Amazon and Azure, but it was the personal touch in working with Green House Data that was the biggest driver.”
